Disclaimer: INOX® is not liable for any change of specifications by door and lock manufacturers.

Door Configurations:

The new INOX® Multipoint Trim is designed to be an universal trim which fits the majority of multipoint locking systems for swing doors in the marketplace. INOX® Multipoint Trim has adjustable thru-bolt distance covering almost every door prep configuration as long as the Lever to Cylinder has a 3-5/8" (92mm) center distance.

^{*} The Covering Range and Lever to Cylinder CTC are the same for EURO and AMERICAN Locking Systems, Lever High or Lever Low.
