Infinity Towel Warmer Series - Dual Connection 120VAC

The Infinity towel warmer is as convenient as it is versatile. With enough space for 2 large towels to be warmed at one time, it's made of stainless steel and features a variety of beautiful finishes.

This towel warmer is also dual connect. It can be used "as is" to plug into a standard 120 VAC outlet or modified by a licensed electrician to be hardwired.

Its unique design means there is no unattractive and cumbersome cover plate required.

The Infinity comes with an LED power switch and TempSmart™ overheat protection to prevent the unit's surface temperature from exceeding 167°F.

Also Available in:

Polished
Stainless Steel

Brushed
Stainless Steel
