Sierra Towel Warmer Series - Dual Connection 120 VAC

With its geometric look and a variety of finishes, the stainless steel Sierra is ideal for modern bathrooms. The Sierra's eight square bars can accommodate two bath towels or a bathrobe to help keep them warm or dry between uses.

This towel warmer is also dual connect. It can be used "as is" to plug into a standard 120 VAC outlet or modified by a licensed electrician to be hardwired.

Its unique design means there is no unattractive and cumbersome cover plate required.

The Infinity comes with an LED power switch and TempSmart™ overheat protection to prevent the unit's surface temperature from exceeding 167°F.

Dimensions

23.6" W x 31.5" H x 4.3" D

Also Available in:

Warranty:	2 years

Features

- ✓ **Variety of Finishes:** The 8-bar Sierra is made out of 304-stainless steel and is available in a polished, matte black, or polished gold finish.
- ✓ **Dual Connection:** The wall-mounted Sierra can be used as is for a plug-in connection or the cord can be modified by a licensed electrician for a hardwired connection (120 VAC)
- ✓ **Overheat Protection:** To prevent the unit's surface temperature from exceeding 167°F this model comes with built-in TempSmart™ overheat protection
- ✓ **No Cover Plate Required:** Because this unit doesn't require a gang-box or corresponding cover plate, it has a very streamlined and balanced appearance after installation
