Product Description

Available in several different models, heated towel racks from WarmlyYours provide a sleek yet functional design, perfect for a variety of home decor styles.

These models are able to provide such a high level of performance at such a low cost (often just 15 cents per day) because of the internal heating elements which turn the bars into sources of radiant heat for warming towels and bathrobes. And not only do these electric models warm your bath towels, they can actually dry them in-between uses.

Heats Quickly and Evenly

Quick warm up time with evenly distributed heat for optimal warmth.

TempSmart™ Overheat Protection

These models come with built-in TempSmart™ protection to prevent the unit from overheating.

All towel warmers hold a cULus Listing. UL File number E336999

Sku Number	Shape	Bars	Finish	Voltage	Wattage	Amperage	Ohms	BTU/Hour	Connection Method	Ingress Protection Rating
